## **Modular Extension Units**

## ☐ FX1S ☐ FX1N ☐ FX3G ☐ FX3U ☑ FX3UC

FX2NC-16EYR-DS

## **Extension Units FX2NC**

The modular extension units of the FX2NC series can be used in combination with FX3UC series base units only. They are available with 16 or 32 input/output points. For modules with 16 outputs it is possible to choose between relay and transistor output type.

Note: These modules can be used in combination with a FX3UC PLC only!

## **Special Features:**

- Very compact dimensions
- LEDs for indicating the input and output status
- Removable terminal blocks for FX2NC-16EYR-T-DS and FX2NC-16EX-T-DS (interchangeable against optional spring terminal blocks)
- Adapter modules and system cabling sets are optionally available for units with ribbon cable connectors (transistor output
